HOME-BASED BUSINESS

Overview

Home-Based Business Summary

FREQUENTLY ASKED QUESTIONS

(F.A.Q.'s)

1) What does it mean to register your Home-Based Business?

In order to conduct any type of business with the community of USAG Bavaria, you must follow the proper registration procedure with the host nation as well as the USAG Bavaria Garrison per the rules and regulations. Provided in this packet are steps to get started.

2) Do I have to register as an HBB with the garrison?

*Absolutely! If you are running **your own business** in government or government-leased property, yes. If you live off-post but will be offering your products and services to the USAG Bavaria community, yes. If the business is yours, you must register.*

3) How long does the process take?

Each home-based business has its own specific requirements. We always recommend applicants to begin the registration procedure with German business registration and German tax professionals. During the waiting period, we recommend applicants to then begin the other half of the application process with USAG Bavaria, Army Community Services Center.

Process	Length Of Time
First: German business registration, tax professionals	2-3 Months
Second: Legal Review, Other Approving Authorities & Garrison Approval	30-60 Days

4) What are the consequences of not properly registering your home-based business?

Failure to properly register your HBB violates U.S. Army in Europe regulations and leaves you susceptible to military administrative or civilian misconduct action, as well as fines and prosecution from German authorities. Additionally, see AEA 210-70.

5) Can I conduct business while awaiting approval?

No; If goods and/or services are provided to the USAG Bavaria community in exchange for money, the applicant will immediately be denied approval.

Teleworking? Please read.

If you are teleworking for another company or 100% online AND you do not see clients in-person, or have products in hand, no. For this you would have to follow Host Nation guidelines by obtaining a German Tax ID and paying taxes on any revenue you are generating that is not covered by the SOFA agreement. If you are uncertain about whether or not you should be paying German taxes, contact a local German Tax Professional to discuss the requirements.

FACT SHEET

Please carefully review the following information

REVIEW OF AEA 210-70 REGULATIONS:

Restricted Practices: Solicitation, Advertising & Access:

Door-to-door solicitation includes any solicitation without an appointment in—Areas used for processing or housing transient personnel including barracks, dormitories, unit areas, family quarters areas, and areas provided by the garrison commander for interviews and appointments.

An individual cannot use approval to solicit pottery wares, for example, to access an installation and then solicit other products, goods, or services.
9. Soliciting personnel, distributing product literature, or displaying advertising materials at bazaars sponsored by AAFES, FMWR, or a PO unless the company or individual has a signed contract with the bazaar organizer and the company's or individual's participation and planned activities have been specifically approved in writing by the garrison commander.

This includes using or assisting in using a Soldier's MyPay account or other Internet medium for the purpose of establishing a direct deposit for the purchase of insurance or another investment product.

Restricted Employment Practices on Army Installations:

1. Using military personnel or DOD civilian employees to directly or indirectly represent, be employed by, or act as agents for a commercial enterprise on Army installations. This restriction applies even if the military personnel or DOD civilian employees do not receive compensation.
2. Employing individuals under the age of 18 as employees, representatives, or agents.
3. Individuals operating an HBB may not employ Soldiers or Federal employees as agents, brokers, or salespersons.

Restrictions on Use of Government and Support Facilities:

1. Individuals operating an HBB may not use any Government property (for example, computers, fax machines, telephones, supplies, cell phones) for any HBB activities.
2. Individuals operating an HBB may not use FMWR facilities (for example, craft shops, and recreation centers) in support of the HBB.

Host Nation and U.S. Tax Obligations for Home-Based Businesses:

Individuals operating an HBB are liable for all applicable HN individual and business taxes and they may also be liable for U.S. income, social security, and corporate taxes. Individuals operating an HBB must obtain an HN tax number and may be required to obtain a U.S. taxpayer identification number. Individuals operating an HBB are not authorized to receive legal or tax assistance regarding their HBB from military legal offices.

NOTE: Conducting business activities without proper registrations and declaration of revenue and taxes is considered tax evasion. HN tax authorities may levy back taxes on revenues generated up to 7 years into the past plus administrative fines. In addition, if case records are inadequate or nonexistent, HN tax officials will rigorously estimate sales and revenues. Based on such an estimate, individuals may then be taxed and be liable for interest and fines. HN tax officials can consider worldwide income to include nontaxable money such as living allowances, other allowances, and the savings advantages provided by the SOFA (tax-free fuel, tax-free shopping at commissaries and the PX). Estimates are always disadvantageous to the taxpayer. Large-scale tax evasion may result in criminal charges.
